MARKETING CAMPAIGN

Running campaign is one of a larger marketing strategy (as acute marketing efforts aimed at achieving a particular goal)

Food photography/visual communication: images are an essential tool for a **food marketing strategy**. Photography plays a very important role in this sector; through the right framing and colour management choices it is able to stimulate and activate a whole series of sensations that trigger curiosity and desire.

The purpose of food marketing is to load your products with flavour, perfumes and beauty and history, even before trying them.

THE KEY MESSAGES OF THE CAMPAIGN:

How are you trying to position your company, your products or your services? How will capture the attention of the users?

The Message must be Simple, clear and Wow! (Think about the right content, and picture and colours are essential for a successful campaign).

#1 CAMPAIGN KEY MESSAGE:

Promote the Brand authenticity and the traditionality by showing a **real picture from South of Italy**, with the aim of conveying the quality and the history of the product (**orecchiette** and pasta in general): fresh, authentic, traditional, genuine, healthy, tasty in an emotional historical traditional environment.

The black and white photo evokes the old tradition of generations who pass by while the food, maintained in its pristine colourfulness, represents the traditional flavour which has not changed.

Then, dip the orecchiette and the washed wild rocket into the same water. Cook it for about 5-6 minutes or the time indicated on the package. Drain the orecchiette with wild rocket and potatoes and toss with the tomato sauce.
